TRADE.

The general markets were without animation to-day, as is nearly always the ported, 272 bales cotton. case in mid week. Planters are busy putting in their crops, and have not time to ome to the city. From Captain Rube Haynes, of the Mary Boyd, we learn that along the Arkansas river the plow is busy. and a very large extent of land will be tilled this year. Labor is comparatively plentiful, and nearly all the cleared lands have been rented out. Vegetation along that river is fully two weeks in advance recommend to our friends and the public

of the seed of the jute plant, with a riew to introducing its culture into the ex-treme section of the Union south of the Sewton Ford & Co. Hill, Fontaine & Co. frost line. It is being distributed to planters in Texas and Florida, who will give it a fair trial. It is a fibrous plant, GROCERS, 304 Front Street, resembling flax; of easy culture, and rapid growth, with a comparatively large product. The crop, when ripe, is cut down to the roots, and after being steeped in water for a week or so, the bark strips easily, and the silky fiber is detached. We intend to give our entire attention to this branch of business only and in solicities to this branch of business only and in solicities. cleaned and sorted, and packed in bales of ing a liberal patronage, we promise our beston pounds each. The annual product of effort for the interest of our patrons. BROOKS & CO. cleaned and sorted, and packed in bales of jute in India is estimated at more than 200,000 tons. It is the material of which gunny bags and cloth, and bagging for ED J. TAYLOR. W.C. RUTLAND. cotton, as well as cheap cordage mats, TAYLOR & RUTLAND, and carpets are made. Its great use, however, is for baling cotton. As it takes about six yards to wrap a bale of cotton, a crop of 3,000,000 bales would require 18,-000,000 yards of bagging. The machinery for making it in India is very rude; in fact no progress has been made in it for centuries. But jute factories of great size of which employ 2000 hands, and work up 1000 bales per week into bagging, sacking, some 10,000 tons of the raw material are consumed; and in our Northern States.

HAVING sold our stock of Grocertes to Messra BROOKS & CO., we now change our thanks to our friends and customers for the liberal patronage extended to us the last call on us, and extend to us liberal coasign ments of cotton and produce. We promise prompt returns and liberal advances.

ANYLOR & RETLAND. consumed; and in our Northern States PARTEE & HARBERT, 317 Main Street, Memphis, Tenn. its manufacture is steadily increasing. Jute is spun with machinery made on the same principle as that used for flax and It is more easily worked than either of these fibers; which fact, connected with the A. P. BURDITT & CO. cheapness of the raw material, accounts for the rapid progress of the jute manufacture in Great Britain, compared with linen or hemp. After being used up as bagging, etc., it finds its way to the paper Commission Merchants

mills for the manufacture of coarse papers. Phillips' Cincinnati provision circular Of the 19th says:

During all last week there was a firm market for all articles of provisions, with gradual advances in prices; but toward the close the demand aster. And for three says.

The same

or four days the market has been dull and quiet, with slight declines, and it is easier to buy at quetations below. Holders, however, at this point, are strong in pock-

money, city or county scrips.

Secretary Boutwell is very confident of the passage, at an early date, of the funding bill, without any material modification of its provisions, as passed by the Senate.

SPECIAL NOTICES.

OFFICE OF THE DAILY APPEAL, I MAMPHER, April 21, 1870.

FINANCE.

The money market is entirely unchanged. We learn of no demand for stocks or bonds, and the only excitement in the market is that occasioned by the action of the Council in reference to the new city bonds published officially in the APPEAL of yesterday.

Exchange is generally scarce, though abundant at one of our national banks. Rates are steady at par buying, and is premium selling.

There is no change in rates of Tsunessee money, city or county scrips.

The bond are the point, are strong in pocks, and are not willing yet to make any important concessions in order to sell, preferring to see it out and take the changes of botter prices in the tuture. While if the product were offered with any degree of freedom, a positive decline must take place, and it seems strange that with the light stocks reported all over the country, especially the South, that orders are not more free from that quarter. The least is buying but little here, our recipies of country product are increasing, while a large number of points tributary to Cincinnstit have unloaded but little as yet, and the stock on hand in this section is agreed if not greater than for several season past. The little demand that exists is entirely consumptive; speculators do not seem to have the nerve to operate at the prices for the future.

Brandreth's Pilis.—Their Great Value consists in this: They may be used so long as " Children's Lives Saved for 50 Cents."

do not seem to have the nerve to operate at the prices for the future.

ALLCOCK'S POROUS PLASTERS. Step by step this commodity has attained its unprecedented fame. They are universally approved. They support, strangthen and att the growth of muscles. They appear to have a peculiar effect upon the nerves, allaying irritability, while supplying warmth. They seem to accumulate electricity, and aid the circulation of the blood through the partwhere applied, by which healthy actions are induced.

where applied, by which heatthy actions are induced.

Even in paralysis, where articulation was suspended, the use of the Porous Plasters to the spine restored the articulation, and materially reduced the paralysis. In fact, the patient could help herself, while before the Porous Plaster was applied she was as helpless as a baby. We refer to Mrs. Sally Elliott, Springfield, Mass.

Solid by druggists. Agency, Brandreth House, New York.
